Drupal 8 Site Builder

Self-Assessment

Welcome to the Drupal 8 Site Builder Self-Assessment!

The purpose of the Drupal 8 Site Builder certification exam is to validate the skills and knowledge of a Drupal Site Builder in the areas of using Drupal features, Content and User Management, Content Modeling, Site Display, Community and Contributed Projects, Module and Theme Management, Security, and Performance.

We suggest you perform the following skills and expertise self-analysis with respect to the domains and topics listed for the exam. This assessment will help you evaluate where you are within your learning of the exam domains and your readiness for the examination.

Examination Domains

Domain	% of Exam
1.0 Understanding Drupal	6%
2.0 Working with a Drupal Site	20%
3.0 Content Modeling	24%
4.0 Site Display	12%
5.0 Site Configuration	14%
6.0 Community and Contributed Projects	8%
7.0 Module and Theme Management	8%
8.0 Security and Performance	8%
TOTAL	100%

How to use the Self-Assessment

Rank your own skills on a scale of 0 to 10 against each test objective below. Use 0 for absolutely zero knowledge or exposure and 10 for complete mastery of the topic.

— Topics with a score of 8+ are your strengths.
— Topics with a score of 5 to 7 will need some preparation.
— Topics with a score below 5 may require a lot of preparation, or guided instruction.

Leverage the resources in the Acquia Certified Drupal 8 Site Builder Study Guide to learn more about how you can prepare, and what resources are available to study further on specific exam topics.
